

17 October 1961

MEMORANDUM FOR: Chief, Requirements Branch, Intelligence Information Staff, ORR

FROM: Chief, Collection Group, GM/T

SUBJECT: Requirements on L'vov Oxygen Plants

25X1C

2. The forwarding of these requirements at a Secret level requires that permission be obtained from DD/P for removal of the NoForn caveat from the following information:

- 25X1A2g a. [REDACTED] 28 January 1959 (S/NF/CC).  
Designation of the oxygen plant built in 1953 as "Plant No. 31."
- 25X1A2g b. [REDACTED] 6 September 1961 (S/NF/CC).  
Reference to a special LOX car and to the location of a bicycle factory at the end of trolley bus line No. 6.
- 25X1A2g c. [REDACTED] 28 August 1959 (S/NF/CC).  
Reference to a section of Plant No. 31 which supplies oxygen for civilian use and is located outside the wall surrounding the plant area.
- 25X1A2g d. [REDACTED] 2 February 1959 (S/NF/CC).  
Mention of Plant No. 100, a state food reserve base, as adjacent to Plant No. 31, and mention of the road to Sikhuv on the northern edge of Plant No. 100. Description of Plant No. 100: six-story cold storage plant; stores with corrugated asbestos roofs above ground level.
